

PROCEEDINGS OF SPIE

Laser Technology for Defense and Security XVIII

**Mark Dubinskii
Rita D. Peterson**
Editors

**3–4 May 2023
Orlando, Florida, United States**

Sponsored and Published by
SPIE

Volume 12515

Proceedings of SPIE 0277-786X, V. 12515

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Laser Technology for Defense and Security XVIII, edited by Mark Dubinskii,
Rita D. Peterson, Proc. of SPIE Vol. 12515, 1251501 · © 2023 SPIE
0277-786X · doi: 10.1117/12.2690604

Proc. of SPIE Vol. 12515 1251501-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Laser Technology for Defense and Security XVIII*, edited by Mark Dubinskii, Rita D. Peterson, Proc. of SPIE 12515, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

SPIDigitalLibrary.org

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

SESSION 1 SEMICONDUCTOR LASERS

- 12515 02 **Eye-safe high-reliability triple junction laser diode for long-range rangefinder and LiDAR**
[12515-1]
- 12515 03 **Strong optical linewidth narrowing through surface grating feedback in two different blue laser diodes configurations** [12515-2]
- 12515 04 **Complex spatio-temporal non-linear dynamics in a 1D-array of 23 broad-area semiconductor laser diodes under external optical feedback** [12515-3]

SESSION 2 LASER APPLICATIONS AND ATMOSPHERIC PROPAGATION

- 12515 05 **A novel ultra-bright high-luminance and compact light source based on phosphor converted laser for advanced modern optical systems** [12515-5]
- 12515 06 **The behavior of spatiotemporal Bessel-Gauss beams in atmospheric turbulence** [12515-7]

SESSION 3 MWIR AND LWIR LASER MATERIALS AND APPLICATIONS

- 12515 07 **Progress in high-speed optical links in the 8 to 12 μ m thermal atmospheric window from the perspective of unipolar quantum technology** [12515-10]

SESSION 4 FIBER LASER POWER SCALING

- 12515 08 **Power scaling potential of single crystal fiber amplifiers** [12515-12]

SESSION 5 NOVEL LASER SOURCES AND MATERIALS (BULK)

- 12515 09 **Eye-safe passively q-switched lasers at 1.3 μ m with >1W average power and nsec pulses**
[12515-13]

- 12515 0A **Compact fiber-coupled high energy Nd:YAG laser** [12515-14]
- 12515 0B **Single-step fabrication of transparent SrF₂ ceramics for optical applications** [12515-15]

Conference Committee

Symposium Chairs

Tien Pham, The MITRE Corporation (United States)
Douglas R. Droege, L3Harris Technologies, Inc. (United States)

Symposium Co-chairs

Augustus W. Fountain III, University of South Carolina (United States)
Teresa L. Pace, L3Harris Technologies, Inc. (United States)

Program Track Chairs

Mark Itzler, Argo AI, LLC (United States)

Conference Chairs

Mark Dubinskii, DEVCOM Army Research Laboratory (United States)
Rita D. Peterson, Air Force Research Laboratory (United States)

Conference Program Committee

Colin C. Baker, U.S. Naval Research Laboratory (United States)
Scott Christensen, IPG Photonics Corporation (United States)
Chris Ebert, Freedom Photonics, LLC (United States)
Thomas Ehrenreich, Defense Advanced Research Projects Agency
(United States)
Lawrence Grimes, Air Force Research Laboratory (United States)
Daniel Matyas, U.S. Army Space and Missile Defense Command
(United States)
Timothy C. Newell, ManTech International Corporation (United States)
