Volume 9187

Proceedings of SPIE 0277-786X, V. 9187

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The Nature of Light: Light in Nature V, edited by Rongguang Liang, Joseph A. Shaw, Proc. of SPIE
Vol. 9187, 918701 · © 2014 SPIE · CCC code: 0277-786X/14/\$18 · doi: 10.1117/12.2085334

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *The Nature of Light: Light in Nature V*, edited by Rongguang Liang, Joseph A. Shaw, Proceedings of SPIE Vol. 9187 (SPIE, Bellingham, WA, 2014) Article CID Number.

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

COLOR IN NATURE

9187 04	Polarimetry of nacre in iridescent shells [9187-3]
---------	---

BIO-INSPIRED OPTICS I

9187 05	Genetic algorithms used for the optimization of light-emitting diodes and solar thermal collectors [9187-5]
9187 06	Light-extraction enhancement for light-emitting diodes: a firefly-inspired structure refined by the genetic algorithm [9187-4]

INFORMATION FROM LIGHT IN NATURE

9187 08	Insights of finite difference models of the wave equation and Maxwell's equations into the geometry of space-time [9187-7]
---------	---

COLOR AND VISION IN NATURE

9187 0B	Structural color and its interaction with other color-producing elements: perspectives from spiders [9187-10]
---------	--

BIO-INSPIRED OPTICS II

9187 0E	Utilizing laser interference lithography to fabricate hierarchical optical active nanostructures inspired by the blue <i>Morpho</i> butterfly [9187-13]
---------	--

Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Conference Chairs

Rongguang Liang, College of Optical Sciences, The University of Arizona (United States)

Joseph A. Shaw, Montana State University (United States)

Conference Program Committee

Katherine Creath, 4D Technology Corporation (United States), Optineering (United States), and The University of Arizona (United States)

Mitsuo Takeda, University of Electro-Communications (Japan) and Utsunomiya University (Japan)

Priscilla Simonis, Facultes Universitaires Notre Dame de la Paix (Belgium)

Qiwen Zhan, University of Dayton (United States)

Session Chairs

- 1 Optics of Art
Rongguang Liang, College of Optical Sciences, The University of Arizona (United States)
- 2 Color in Nature
Joseph A. Shaw, Montana State University (United States)
- 3 Bio-inspired Optics I
Joseph A. Shaw, Montana State University (United States)
- 4 Information from Light in Nature
Joseph A. Shaw, Montana State University (United States)
- 5 Color and Vision in Nature
John Koshel, and The University of Arizona (United States)
- 6 Bio-inspired Optics II
Katherine Creath, 4D Technology Corporation (United States), Optineering (United States), and The University of Arizona (United States)
- 7 Atmospheric Optics
Katherine Creath, 4D Technology Corporation (United States) and Optineering (United States) and The University of Arizona (United States)
